43  
Right

Auxiliary Engines

Hull Overlay pieces. These are optional.

If you use them use part 44a on the nose,  
otherwise use part 44b.

Spacers for mounting of hull overlays

Glue all formers and spacers to at least a double layer of cardstock for additional strength.

The numbering of the formers indicates their position in the structure. Formers 1-2 x connect formers 1 and 2, Formers 2-3x connect formers 2 and 3 and so on. The formers are numbered from front to back.
